_____ has successfully completed a swimming test which required the child to swim a distance of fifteen (15) yards unassisted.

_____ (lifeguard) has current evidence of having completed successfully a training program in life guarding offered by a water safety instructor certified by the American Red Cross or YMCA or YWCA or other recognized standard-setting agency for water safety instruction. **(copy of evidence is in file).**

Signature of Lifeguard or Instructor

Date

Sweetwater Academy has obtained a letter from the off-site swimming facility that all lifeguards on duty have successfully completed a training program in life guarding.

In lieu of requiring each child to take a swimming test to determine whether the child can swim a distance of fifteen (15) yards unassisted, center staff may accept copies of certificates or cards from a recognized water-safety instruction organization showing that the child has successfully completed a swimming class which required the child to swim a distance of fifteen (15) yards unassisted. In this instance, the center must maintain a copy of the document and keep it in the child's file.
